Avid Media Composer Avid's Media Composer digital video editor is an industry standard for all types of video work. The program brings together diverse media including DVDs, hard drives, live video, DSLR video, and 3D (stereoscopic) content into a single virtual editing environment. The program comes with a host of virtual editing tools for color correction, stabilizing, and adding visual effects to create your movie. During a conversation with the product manager, I found out that the company is focused on simplifying the editing process and removing all of the fluff that was being done by Adobe.
